An effective method for determining a price is to send out a survey to your present customers. If these prospects have already purchased an e book from you, ask for their opinion when it comes to price. Do this by creating a sales page for the new book, but don't embody a price on that page. As an alternative, add quite a lot of hyperlinks to survey questions that ask pointed questions to help you in assigning a price to your ebook.

Another technique is to check out costs by creating a variety of duplicate sales pages with completely different costs on each page. Be certain your gross sales copy is strictly the same on each web page, and consists of your selling-deal with sentence. Then figure out for each web page the conversion ratio between visitors to your website and gross sales of your book. This will tell you what your optimum worth is.

Finally, if you've written a e-book that solves a drawback or presents a brand new approach, your guide will herald each traffic and profits.
