An efficient technique for figuring out a value is to ship out a survey to your current customers. If these prospects have already purchased an e book from you, ask for his or her opinion by way of price. Do that by making a gross sales web page for the new book, but don't embody a price on that page. As a substitute, add various links to survey questions that ask pointed questions to help you in assigning a price to your ebook.

Another strategy is to test out costs by creating a number of duplicate sales pages with completely different costs on every page. Ensure your gross sales copy is precisely the same on every web page,

and contains your selling-handle sentence. Then figure out for every page the conversion ratio between guests to your website and gross sales of your book. This may tell you what your optimum value is.

In the end, for those who've written a e book that solves a drawback or presents a new technique, your ebook will usher in both visitors and profits.
