In addition to promoting your books assiduously online, there are a number of other strategies that can allow you to sell extra books.

One is to present something away for free together with your e-book, akin to a useful bonus item. Or bundle several ebooks below one worth, which lowers the price for each e-book in the event that they were bought separately.

An efficient approach for determining a value is to ship out a survey to your present customers. If these prospects have already purchased an book from you, ask for his or her opinion in terms of price. Do this by creating a gross sales web page for the new book, but don't embrace a value on that page. As a substitute, add various hyperlinks to survey questions that ask pointed questions to help you in assigning a price to your ebook.

Another strategy is to test out costs by creating a variety of duplicate sales pages with completely different prices on every page. Make sure your sales copy is exactly the similar on each web page,

and includes your promoting-deal with sentence. Then determine for every web page the conversion ratio between visitors to your site and sales of your book. This will let you know what your optimum price is.

Finally, in case you've written a ebook that solves a drawback or presents a brand new approach, your ebook will herald both visitors and profits. So you should definitely write that selling-deal with sentence that sums up what drawback your guide solves and what the advantages of your 810 guide can be to the purchasers who buy it.
